1. Who we are and what we do

Durham County Council
Regeneration and Local Services
Care Connect and CCTV

Care Connect provide a 24/7 support (monitoring of calls and response to customers home) service to Care Connect customers and a telecare service to those customers with an assessed need. Telecare is equipment to help maintain independence the following is examples of some of the equipment we provide such as epilepsy, smoke, bed, chair, flood and property exit sensors. We also provide a private telecare service for those customers who do not wish to go through the assessment process and wish to purchase equipment directly from Care Connect.

Care Connect provides a Home from Hospital Service to the residents of Durham and Darlington to enable them to be safely discharged from hospital and assist in the prevention of readmission into hospital.

The service also works with North East Ambulance Service and responds to non-injury falls, to allow the ambulance service to deal with emergency calls. Care Connect provide a Lone Worker service for Durham County Council staff and external customers.

We also monitor Durham County Council corporate calls out of hours and have agreements with a number of external organisations to provide services, including out of hours emergency repairs.

Care Connect manage and monitor Durham County Councils public realm cameras and provide CCTV footage to the Police. Please note that the Police are the data controllers, once the footage has been transferred. Care Connect also provides footage via SARs (Subject access Requests) which are managed by the corporate data protection team.

The service complies with the CCTV Code of Practice with additional procedures to support the policy. All CCTV operators and Managers are SIA (Security Industry Authority) licensed.

For more information see the [Durham County Council website](#).

For the purposes of Data Protection, Durham County Council is the Data Controller for your information.
