

The more of these we can get out

Recycling one can uses 20 times less energy than making a new one.

When it comes to recycling, metal is hard to beat. That's because it's 100% recyclable – so every last bit can be turned into something else, the possibilities are endless. Imagine how much energy you could save.

Within as little as sixty days, the empty can you put into your blue-lidded recycling bin (or recycling bag if you live in an area where bags are used as an alternative) could be back on the shelf as a new can of coke or tin of beans!

Alupro | Durham

that you put in

Place the following metal items in your blue-lidded recycling bin

- ✓ Drink cans
- ✓ Food tins
- ✓ Pet food tins
- ✓ Empty aerosols
- ✓ Foil and foil trays
- ✓ Sweet and biscuit tins

Wash and squash cans and foil and place all items loose into your recycling bin – do not bag!

Do I need to clean them or take anything off?

All your cans, aerosols and foil need to be clean and empty. Wash and squash cans and foil. Remove lids but you don't need to remove any labels. Place clean, dry items loose into your blue-lidded recycling bin. Do not bag!

All metal is 100% recyclable but unfortunately we cannot currently collect it all from your recycling bin

Please take any other metal items not listed above to be recycled at your household waste recycling centre. Items may include: bikes, garden tools, pots and pans, empty paint tins, scrap metal. Visit: www.durham.gov.uk/hwrc for opening times and more information.

Other materials we also collect at the kerbside

paper & cardboard

food tins & drink cans

cartons

aerosols & foil

plastic pots, tubs, trays & bottles

glass bottles & jars

Don't delay – recycle today!
