

Really, really pleased at the moment. We've had some fabulous changes. We've had a full refurb. We've got new changing facilities, school facilities, brand new lockers, shower units. Absolutely brilliant, can't wait to get the public in. Looking forward to opening up now.

We've got three aqua classes that we are trying to promote. One is the aqua spin which is obviously the bikes in the water. Quite unusual but it does work.

We've got aqua trampoline which is absolutely fantastic and good fun and we've also got aqua pole and yes, that's what it is, it's called aqua pole because you are doing exercises on a pole and it is really good fun.

Feedback has been absolutely brilliant, customers love it. Its exercise with fun. It's all core. It's absolutely brilliant and the music's good as well.

When we first came in we were like Ooh! It's even better than we could have imagined. Honestly! We knew it would be nice, after we had been in a temporary library for so long, but this is just way better than we expected. Everybody is going to be thrilled, they really are. It's so light and airy, everyone will love it, especially the children's area. Really good!

We've got loads of lovely new books, there's loads of space for the children. We can have our groups in here. Its lovely, it is. It's so lovely. So Happy. There's a space for everybody, there is a space for everybody.

We have a lot more seating areas for people who come and use the internet. Obviously we have got the **Junior section** here and just a lot more welcoming space for people to come. New customers as well, as well as our old customers. So it will be fantastic.
