Introduction

Section 88P of the School Standards and Framework Act 1998 (the Act) requires every local authority to make an annual report to the adjudicator. The Chief Schools Adjudicator (CA) then includes a summary of these reports in her annual report to the Secretary for State for Education. The School Admissions Code (the Code) sets out the requirements for reports by local authorities in paragraph 6. Paragraph 3.23 specifies what must be included as a minimum in the report to the adjudicator and makes provision for the local authority to include any other issues. The report **must** be returned to the Office of the Schools Adjudicator by **30 June 2017**.

The questions have been revised for 2017 with the purpose of:

- a) making the information gathered statistically robust and as useful as possible to the local authorities which provide the information; that is: the Office of the Schools Adjudicator (OSA) which receives the information; the Department for Education (DfE) to which the CA provides her annual report; and the children and families for whom the Code is designed to make sure that places are allocated and offered in an open and fair way;
- b) minimising the work required by local authorities in providing information; and
- c) avoiding duplication of effort.

This revised format therefore, in addition to statutory requirements as described in the Code, explores: points raised by local authorities in previous reports and matters which have arisen in the CA's Annual Report and areas of interest to the DfE. If information is already collected elsewhere, such as the number and type of schools and data relating to appeals, then it is not asked for again here but will be available for inclusion in the CA's Annual Report.

Information requested

1. Looked after children and previously looked after children

It is a requirement of the Code that there is information in the local authority's annual report about how admission arrangements in the area of the local authority serve the interests of looked after children and previously looked after children.

- a. How well do admission arrangements in your local authority area serve the interests of looked after children?

Not at all Not well Well Very well

- b. How well do the admission arrangements in other local authority areas serve the interests of your looked after children?

Not at all Not well Well Very well

- c. How well do admission arrangements in your local authority area serve the interests of previously looked after children?

Not at all Not well Well Very well

Please give examples of good or bad practice or difficulties which support your answer and provide any suggestions for improvement:

In both the primary and secondary sectors, the highest priority awarded in the criteria for oversubscription is to Looked After Children and previously Looked After Children.

2. Children with disabilities and children with special educational needs

It is a requirement of the Code that there is information in the local authority's annual report about how admission arrangements in the area of the local authority serve the interests of children with children with disabilities and children with special educational needs.

- a. How well served are children who have disabilities and/or special educational needs who have an education health and care plan or a statement of special educational needs that names a school?

Not at all Not well Well Very well

- b. How well served are children who have disabilities and/or special educational needs who do not have an education health and care plan or a statement of special educational needs?

Not at all Not well Well Very well

Please give examples of good or bad practice or difficulties which support your answer and provide any suggestions for improvement.

Children with exceptional medical needs are the second priority in the oversubscription criteria in both the primary and secondary sector.

In accordance with the SAC, all pupils with a Statement of Special Educational Needs or an Education Health and Care Plan which names a particular school are allocated a place at that school.

3. Consultation

Paragraph 1.44 of the Code states who needs to be consulted if consultation on admission arrangements is required. The CA has noted that these requirements are not always fulfilled in the arrangements which come to the attention of the OSA and, in particular, consultation with parents is not always as full as it should be. The OSA therefore wishes to get a better understanding of the wider situation and provide examples of good practice.

- a. When did the local authority last consult on its arrangements?

Please provide the year.

2011

b. Please describe the means by which the local authority consulted with parents. Highlight all those means used:

- Committee paper on the local authority's proposals on admissions on the council's website.
- Consultation paper designed for parents on the local authority's proposals on admissions on council's website.
- Request to all schools to provide information on the local authority's consultation on its admission arrangements to parents and providing support to make this possible such as posters, leaflets and links to the relevant information on council's website for the schools' newsletters.
- Request to all early years settings to make information on the local authority's consultation available to parents by providing support to make this possible such as posters, leaflets and links to the relevant information on the council's website for the settings' newsletters.

Social media (please provide some detail).

Adverts in local press.

Articles in local press.

Posters in supermarkets, doctors' surgeries, early years health centres and similar

Please give examples of good practice by schools that are their own admission authority. Examples of good practice in consulting with parents whose children are under compulsory school age will be particularly welcome.

Schools use their own website and newsletters to inform parents of proposed changes to admission arrangements and the rationale for doing so.

4. Pupil, service and early years pupil premiums

Has your local authority consulted for admissions in 2018 on using any of the pupil premiums as an oversubscription criterion in community or voluntary controlled schools?	For entry to reception year	For entry to year 7
a. Pupil premium	Yes/No	Yes/No
b. Service premium	Yes/No	Yes/No
c. Early years premium	Yes/No	N/A

d. If the local authority consulted on any of the pupil premiums please provide a summary of the responses received:

e. If you did not consult on introducing the **pupil premium** please indicate up to three main reasons for not doing so:

- Unsure how it will help social mobility;
- Unsure how it will reduce educational inequality;
- Could displace children living locally to a school;
- Potential transport cost to local authority for local children displaced;
- Some very disadvantaged families do not apply for free school meals and so would be further disadvantaged;
- Feel community needs already well met;
- Would introduce unnecessary complication;
- Lack of capacity; or

i. Other (please explain):

f. If you did not consult on introducing the **service premium** indicate up to three main reason doing so:

- Unsure how it will help social mobility;
- Unsure how it will reduce educational inequality;
- Could displace children living locally to a school;
- Potential transport cost to local authority for local children who might be prevented from being offered a place at their local school;
- Would introduce unnecessary complication;
- Lack of capacity; or

Durham is very successful at meeting parental preference and it would be unlikely that changing oversubscription criteria would improve the percentage of first preferences that can be met. For September 2017 95% of parents received their first choice of secondary school and almost 96% of parents received their first choice primary school. September 2017

please for not

- Other (please explain):
- g. If you did not consult on introducing **early years** please indicate up to main reasons for not
- Application of early pupil premium priority for those attending a nursery at the school could unfairly disadvantage those who did not choose to use the nursery at the school;
- Application of early years' pupil premium priority for those attending a nursery at the school could affect the sustainability of other early years' provision;
- Unsure how it will help social mobility;
- Unsure how it will reduce educational inequality;
- Could displace children living locally to a school;
- Potential transport cost to local authority for local children who might be prevented from being offered a place at their local school;
- Some very disadvantaged families do not apply for free school meals and so would be further disadvantaged;

e. There has been an increase in the number of schools for which the governing body or academy trust is the admission authority. Please describe the effect of this on the admissions system in your area.
This has had no effect as the LA co-ordinates all in year admissions for all schools. It is therefore well placed to monitor the availability of school places across the area. Children are placed quickly and fairly and in line with parental preference as far as is possible.

To how many schools of each type does the local authority delegate responsibility for in-year admissions?	Primary including middle deemed primary	Secondary including middle deemed secondary
f. Community	0	0

7. Appeals

Information on the number of appeals lodged and the proportion upheld is collected separately so this information is not requested again. The information requested below is to add to that information.

e. Please explain your answer giving examples of good and bad practice; successes and difficulties as appropriate.

Since September 2016 we have established four Secondary Behaviour Partnership Panels; the arrangements have been included the FAP. As a result schools in each local area have worked collaboratively to support young people who were at risk of permanent exclusion, through facilitating placements in neighbouring schools in order to ensure full time mainstream education is offered.
