**Notes:**

No Statutory Declaration received

---

HIGHWAYS ACT 1980

SECTION 31. SUB-SECTION 6.

Please take note that British Coal Corporation, as owners of the relevant land, declare that there is no existing Right of Way across enclosure 5644 (see attached plan), and there is no intention to create a dedicated Right of Way by this action.

British Coal Corporation wish to allow temporary public access by way of a permissive path running east-west along the northern boundary of enclosure 5644 only, from Point A where the western end joins the path running north-south through the shelter belt, to Point B where the eastern end joins Meadows Lane running north-south. (as shown on the attached plan).

The path will be effective from the date of this notice until such time as it is revoked by notice in writing from British Coal Corporation or their successors in title to the County Council or their successors, at the latest being 31 December 2006, at which such time permitted public access will be extinguished.

Members of the Public using the path do so entirely at their own risk.

The attached plan shows Ryehill Opencast Site southern boundary coloured black, the existing shelter belt coloured green, the existing path through the shelter belt (incomplete) coloured as a broken red line, and the temporary permissive path through enclosure 5644 coloured as a solid red line.
