

**Henry Bell****Hot Stew**

During the period we were on the hill we had the most marvellous evening meals I've ever had. The carriers came up with insulated containers of all-in stew, which is corned beef, dehydrated, beans, peas, potatoes, you name it, it was in, it was all in stew and it was hot. And when we stood down we were issued with a mess tin and it was beautiful. You couldn't get that stuff at the best hotel in London, it was magnificent it was. I've even made it since I've come home and I still enjoy it.
